Dear Future Baker Landscaping Client:

I have been a client of Baker Landscaping for almost one year. Thanks to Randy Anderson and his company I have seen a complete change in my lawn.

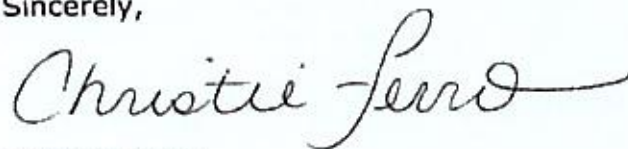

I was previously using a very large lawn fertilization company for over three years and I never understood why my lawn was so brown compared to everyone else in my community. My previous lawn company charged me more per month than Baker and completed half the maintenance. In addition, on two separate occasions, my previous lawn company treated my yard for fire ants without consulting me and proceeded to charge me for the service without my knowledge.

When I met Randy and explained what I was experiencing, he came to my home and consulted me on the services Baker Landscaping provides. Not only do they fertilize my grass but they also maintain my shrubs and weeds in the beds. My grass has never been so green and my azaleas have never bloomed so much throughout the year! My home is now the envy of the neighborhood!

As a single mother with a full-time, traveling career, maintaining a household can be extremely difficult. Baker Landscaping has truly taken a major responsibility off of my plate. Not only does my yard look beautiful but I am saving money every month.

If you would like additional information about Randy and his company, Baker Landscaping, please feel free to contact me. (407) 619-5960.

Sincerely,

A handwritten signature in cursive script that reads "Christie Ferro". The signature is fluid and elegant, with a long, sweeping underline that extends to the right.
